

Scouting Report:

Saman Rasouli

Date of Birth: 2002

Nationality: Swedish

Position: Attacking Midfielder / Right Winger / Left Winger

Report by: Scoutbridge Scouting Department

Saman Rasouli is an explosive and technically skilled attacking player capable of operating across all three attacking positions – as a number 10, right winger, or left winger. He combines speed, agility, and creativity to consistently break lines and create danger in the final third.

Rasouli's main strength lies in his exceptional one-on-one ability. He thrives in isolations, using quick changes of direction and acceleration to beat defenders and open up attacking spaces. He is confident and unpredictable in offensive duels, making him a constant threat on the ball.

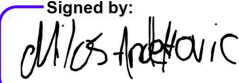

From the flanks, Rasouli adapts his style intelligently depending on his side. When positioned on the right wing, he plays with directness – stretching play, driving at defenders, and delivering precise crosses into dangerous areas with his excellent crossing technique. On the left side, he becomes more of a combination player, often cutting inside into central areas to link play, combine in tight spaces, and create goal-scoring opportunities.

As a number 10, Rasouli demonstrates strong awareness and balance in both receiving and distributing the ball. He operates effectively between the lines, comfortable both facing goal and playing with his back to it. His vision allows him to find through balls and exploit gaps in the opposition's defensive shape.

Rasouli possesses valuable experience from Ettan Fotboll, which has contributed to his maturity and tactical understanding. He carries himself professionally, with a focused and ambitious mindset that aligns with higher-level development.

While his weaker foot is not a limitation, developing it further could add another dimension to his attacking versatility, particularly in finishing and playmaking under pressure.

With his combination of raw talent, creativity, pace, and professional mentality, Rasouli is a player of high potential. The Scoutbridge team is confident that with continued development and the right environment, he can establish himself as a strong performer in Ettan Fotboll within the next two years, with the capacity to rise even higher as his game evolves.
