

## Scouting Report:

Vincent Wiredu

**Date of Birth:** 2003

**Position:** Central Defensive Midfielder (CDM)

**Last Club:** FK Dembava

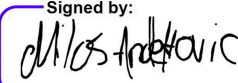

**Report by:** Scoutbridge Scouting Department

Vincent Wiredu is a compact, aggressive defensive midfielder who brings energy, balance, and control to the midfield. Left-footed and composed under pressure, he plays with intensity and discipline, making him an excellent fit for defensively structured teams that rely on transitions and counter-attacks.

Wiredu excels in regaining possession through smart positioning and strong tackling. Despite his shorter stature, his low center of gravity allows him to stay stable in duels and react quickly in tight areas. In possession, he is confident and purposeful – able to distribute with accuracy and switch play efficiently using long diagonal passes.

Defensively, he reads the game well and breaks up attacks early, protecting the back line effectively. His aggression and work rate make him a reliable presence in front of the defense.

A consistent and intelligent holding midfielder, Wiredu would fit naturally into tactical systems prioritizing compact defending and quick transitions, such as 4-2-3-1 or 4-1-4-1 setups
