

## Scouting Rapport:

Noor Derman

### SCOUTING REPORT – NOOR DERMAN

Nationality: Swedish

Position: Left Winger / Attacking Midfielder (No. 10)

Report by: ScoutBridge Scouting Department

#### Player Profile

Noor Derman is a technically gifted attacking player who operates primarily as a left winger, but who also has the qualities to function as a No. 10 in a possession-based side. His game is built on close control, creativity, and strong one-vs-one ability, especially when cutting inside onto his right foot to combine or look for shooting opportunities.

#### Strengths

Noor's standout quality is his technical ability in tight spaces. He is comfortable receiving under pressure, can beat defenders with quick changes of direction, and has a natural instinct for creating chances in the final third. His agility and speed over short distances make him difficult to contain in isolated duels.

As a No. 10, he shows an understanding of finding pockets between lines and using his first touch to open play forward. He is at his best when given freedom to drift inside, link play, and attack defenders directly.

#### Areas for Improvement

To progress to higher levels, Noor needs to develop the physical side of his game. Adding strength will help him hold off defenders, compete in duels, and stay balanced when receiving the ball under contact. Decision-making when playing with his back to goal is another area for growth, particularly in speeding up his combinations and protecting the ball more effectively.

#### Playing Style & System Fit

Noor fits best in systems that allow him to operate between lines and isolate defenders:

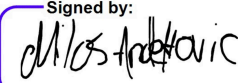

- 4-3-3: As an inverted left winger with creative responsibility.
- 4-2-3-1: As a No. 10 with freedom to combine and break lines.

These structures allow him to maximize his one-vs-one quality and attacking instincts.

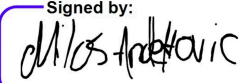

#### Projection

At this stage, Noor is most suited for P19 Regional or P19 Superettan, where he can focus on showcasing his technical strengths while developing the physical and decision-making components needed for senior football.

If placed in a supportive environment with clear tactical demands, Noor has the potential to grow into a reliable creative option at higher youth and early senior levels.
