

## Scouting Report:

Otis Huss

**Date of Birth:** 2008

**Nationality:** Swedish

**Position:** Goalkeeper

**Club:** HTFF (Hammarby Talangfotbollförening) – P17 Allsvenskan

**Height:** 199 cm

**Report by:** Scoutbridge Scouting Department

Otis Huss is an exceptionally promising young goalkeeper with a commanding presence and mature game understanding well beyond his age. Standing at 199 cm, he combines physical dominance with calm decision-making and refined technique.

In aerial situations, Huss shows great authority – he steps out confidently to claim crosses and controls his area with assurance. His positional awareness and timing give him a natural edge in one-on-one and set-piece scenarios.

Technically, he is an offensive-minded goalkeeper with excellent distribution. His vision and long passing range allow him to launch counter-attacks and initiate transitions directly from the back, a quality that fits perfectly with modern, possession-oriented teams.

Huss radiates composure in goal. He avoids unnecessary movements, stays upright in close-range duels, and reads the striker's intentions well. Despite his height, he reacts impressively fast to low shots – a rare combination that highlights both agility and focus.

Mentally, he displays a strong and confident mindset. His presence, body language, and ability to stay composed under pressure reflect a goalkeeper with leadership potential and the mentality required to perform at higher levels.

Based on his technical foundation, mentality, and physical profile, Scoutbridge assesses that Otis Huss possesses the tools and temperament to develop into a top-level goalkeeper with the right progression and continued exposure to competitive environments.
