

Scouting Report:

Ishak Shamoun

Ishak Shamoun, born in 2002, is an exciting and versatile attacking talent with a background that already speaks of both pedigree and experience. A former IFK Göteborg player and Swedish U18 international, he currently represents the historic Västra Frölunda IF, where he has been in outstanding form, scoring 17 goals and providing 5 assists in just 17 games. Despite his young age, he has already accumulated around 90 matches across Ettan and Superettan, demonstrating a level of maturity and experience that sets him apart from many players in his age group.

Shamoun's biggest strengths lie in his ability to impact games in the final third through both goals and creativity. With excellent balance and sharp movement, he thrives at running in behind defensive lines, whether operating as a winger or as a central striker. His versatility is one of his trademarks, as he is equally capable of playing on the right or left wing, as a number ten linking play between the lines, or even deeper as a number eight when his vision and passing range can be used to dictate tempo. This tactical flexibility makes him a valuable option in multiple attacking structures.

Technically gifted, Shamoun excels in one-versus-one situations, where his ability to beat defenders with skill and pace opens up attacking opportunities. His crossing is precise, his finishing clinical, and his set-piece ability makes him a constant threat from free-kicks. Beyond his individual qualities, he is also a strong combination player, linking fluidly with teammates in attacking patterns and fitting naturally into systems that emphasize quick interplay and positional rotations. His vision allows him to spot attacking runs early, creating chances not only for himself but for those around him.

Shamoun's profile makes him perfectly suited for teams that value proactive and courageous attacking football. He is a player who brings energy, creativity, and end product, capable of turning matches through both individual brilliance and collective play. With current trajectory and the maturity he has already gained from significant senior experience, Ishak Shamoun has all the tools to continue his rise and establish himself as an impact player not only domestically but also on the international stage, in competitions such as the UEFA Europa League or Europa Conference League.
