

Scouting Report:

ABDELJELIL AHAMAT

Date of Birth: 2007

Nationality: Niger

Positions: Central Midfield (No. 6, 8, 10)

Report by: Scoutbridge

Abdeljelil Ahamat is a central midfielder who recently progressed from the Niger U20 national team to the senior national team, making his debut against Guinea. He plays with high tempo, is effective in tight spaces, and shows intelligent movement to navigate different phases of play. Reliable both offensively and defensively, he works hard to regain possession through aggressive pressing and well-timed challenges, tracking back with high intensity.

He is comfortable operating as a holding midfielder, box-to-box runner, or advanced playmaker, adapting to the tactical needs of the team. His game is well-suited to leagues that value pressing and compact defensive structures, such as Ettan Fotboll (Sweden), Superettan (Sweden), PostNord-ligaen (Norway) and OBOS-ligaen (Norway). He covers significant ground, wins second balls, and quickly releases the ball to a teammate in congested areas to maintain attacking momentum.

Areas for development include increasing his contribution in goals and assists, improving long-range finishing, and expanding his passing range for progressive play. With targeted work in these areas, he has the potential to reach a higher competitive level in European football.
