

Scouting Report:

Khalifa Mohamad

Player Profile – Khalifa Mohamad

Born: 2005

Position: Central midfielder – No. 6 / No. 8

Khalifa Mohamad is a dynamic midfielder whose profile combines work rate, directness, and attacking drive from central areas. While he has the technical capacity to play both as a number 6 and a number 8, his game is best expressed as a box-to-box midfielder, where he can influence play in both defensive and attacking phases.

One of his standout qualities is his ability to drive the ball forward from deep positions. With confidence and composure, he carries the ball past the first pressing line, opening up space for his teammates and creating opportunities for forward progression. He is particularly effective at making straight, well-timed runs from midfield into advanced positions, stretching the opposition by attacking the space behind the defensive line. This forward movement not only unsettles defenses but also makes him a constant threat to arrive in the box at the right moment.

Khalifa also shows intelligence in his combination play. From central areas he links up smoothly with teammates, finding through balls into wide players and runners higher up the pitch. His ability to switch between carrying the ball himself and releasing it at the right moment gives balance to his team's transitions and makes him valuable for sides that want to move quickly from defense to attack. His profile is therefore especially well-suited for counterattacking teams, where his energy, timing, and verticality can be maximized.

With the right guidance and a continued focus on developing his physical attributes – particularly strength and endurance – he has the tools to become a highly effective midfielder at higher levels.
